ABOUT US

Sofia Information Technology Consulting (SOFIAITC) is a Veteran Owned Small Business (VOSB) professional services and information technology solutions and consulting company located in Tampa, Florida. Our staff includes experienced Program Managers, Architects, Engineers, Specialists, and Analysts with top level security clearances to work in restricted areas.

Our *mission oriented* staff are dedicated and experienced Information Technology (IT) and Cybersecurity professionals who possess managerial and technical expertise with extensive corporate knowledge, Program/Project Management, Risk Management, Technical Subject Matter Expertise (SME), Systems Architects/Engineering, Configuration Management, and Information Systems Security Engineering (ISSE) experience in Government (Federal/State/Local), Commercial (Healthcare/Financial/Oil & Gas/Education/Hospitality) arenas.

MISSION

Deliver **Mission Critical Solutions™** and services to our clients.

CAPABILITIES

SofiaITC ensures the proper execution of IT processes in alignment with our client's business strategy improving the effectiveness and efficiency of their organization. We provide an objective, independent analysis to aid organizations in realizing the full potential of IT resources, investments, and assets through our proven Leadership, Program Management, and Strategic Planning methods.

Technical proficiencies include an in-depth understanding of Microsoft's suite of Operating Systems and Application products, server and workstation environments, extensive knowledge of 'the inner-workings' of Operations & Maintenance and Cybersecurity for the applicable hardware platforms and software programs, and the engineering of baseline systems according to ISSE process, in compliance with FISMA, DISA STIGs, CIS Benchmarks, Security Templates, and SRRs.

CORE VALUES

- Our achievements depend entirely on the success of our employees, clients and partners' performance during pre-mission, mission, and post-mission.
- Excellence begins with a shared commitment to moral and ethical behavior and full accountability.
- The members of our team make the difference. We offer each member a challenging, fair, and positive environment that excites their passions and offers them every opportunity to contribute and grow.
- We exist to fulfill the unique needs of each customer and we are proud to continuously deliver solutions that offer maximum benefit and lasting value.
- We are committed to strong partnerships based on mutual advantage and support.

QUALITY COMMITMENT

Quality processes are embedded in Sofia Information Technology operations, including our areas of project management, information technology consulting, and internal support activities. Our commitment to our clients include the timely delivery of top quality, high value products and solutions, flawless execution of service contracts, living our core values each day and continuous improvement in all we do.
